

Senior Component Engineer

Senior role – 4–6 years of experience

Zollner Services India Pvt Ltd is hiring for the dedicated Component Engineer job role to establish the Shared Service Centre in Pune.

The role focuses on managing purchased-part data in SAP and component databases, ensuring high data quality and close collaboration with global engineering teams.

Key Responsibilities

- Own and govern electronic, mechanical, electro-mechanical and drawing-based component data across SAP and internal databases in line with Zollner standards
- Support global Zollner engineering processes through accurate and timely component data management
- Perform detailed technical evaluations of components, including lifecycle status, environmental compliance and obsolescence risk
- Research and acquire technical data from datasheets, drawings, manufacturers, authorized distributors and external component databases
- Identify, evaluate and grade alternate components based on Form–Fit–Function and technical criteria
- Act as a primary interface with global component engineering teams for process alignment, clarifications and issue resolution
- Contribute to the definition and documentation of SOPs, work instructions and best practices for the India component engineering team
- Provide technical guidance and mentoring support to junior component engineers as the team scales

Requirements

- Bachelor's degree in engineering (EEE/ECE/Mechanical/E&TC/E&I)
- 4–6 years of experience in component engineering, EMS, electronics manufacturing or product engineering environments
- Hands-on experience with SAP ERP systems, particularly material master data and component databases
- Proven ability to evaluate alternate components and manage component lifecycle risks
- Strong analytical mindset with high attention to detail
- Excellent written and verbal English communication skills

Do you feel addressed? A responsible position awaits you in a dynamic company with an appreciative corporate culture. Please send us your application documents by email to mandar.mahajan@zollner.de. We thank you for your interest and look forward to receiving your application!
