Dear Business Partner,

according to the amendments **of the Act XCII of 2003 on the Rules of Taxation in Section 22/E**, came into force from the **1st of August 2016** on, even the transports executed by vehicles not subject to road toll payment will also have to be registered under the EKÁER system in case the real total gross weight of the vehicle exceeds 3.5 tons after loading.

ZOLLNER Kft. is not able to ensure – especially for the so called “less than truckload” deliveries – that the Freight Forwarder or it’s Subcontractor does not load any further goods of other companies to the same vehicle not subject to road toll payment, so that finally the total gross weight of the vehicle exceeds the 3,5 tons.

Based on these facts, ZOLLNER Kft. decided to report each and every shipment in EKÁER- system that is transported by a vehicle not subject to road toll payment, as well.

Therefore we would kindly ask you to send us the completed EKÁER-sheets related to deliveries executed by vehicles not subject to road toll payment, so that we can generate the EKÁER-number for these shipments, as well.

Thank you for your cooperation!

Best regards

ZOLLNER EKAER-TEAM
