Subject: Information about the modifications in Electronic Road Transportation Control System (EKAER)

Dear Valuable Partner,

on 28th February 2015 the Law No. 2015/I. and the relating Regulation of the Ministry for National Economy (NGM) No 5/2015 (II.27.) were published. The new rules are in general effective from 1st March 2015, some of them enter into force only later.

I. Rules of exemption

Certain transports of goods are exempt from the reporting obligation in EKAER:

1. goods dispatched by the same consignor (supplier) to the same consignee (e.g. Zollner Kft.) with the same vehicle - subject to Hungarian road toll payment - as one transport
 - 1.1 in case of risky products (see section II.), if their total gross weight does not exceed 500 kgs and the total value without tax does not exceed HUF 1 million*.
 - 1.2 in case of non-risky products (everything not listed under section II.) , if the total gross weight does not exceed 2500 kgs and the total value without tax does not exceed HUF 5 million*.
2. Every kind of products under customs control procedure:
 - without aiming to give an exhaustive list e.g. customs goods coming outside from the European Union under transit procedure (T1), in case the release for free circulation is made in Hungary.
3. Products dispatched as postal consignment:
 - goods sent with CEP (courier, express, parcel) service (such as, but not limited to DHL, UPS, Fedex etc.), if the gross weight is not exceeding 40 kgs per shipment, independently from the value of the cargo.
(In case of shipments where the gross weight is above 40 kgs per shipment, the value has to be considered at the decision).

* According to the regulation the HUF-value has to be calculated in 2015 with exchange rate 314,89 HUF/EUR.

II. Risky products

The list of “risky products” can be found in the Regulation of the Ministry for National Economy (NGM) No 51/2014 (XII.31) (published on 31th December 2014).

It is available at the following link:

<https://ekaer.nav.gov.hu/articles/view/a-nemzetgazdasagi-miniszter-51-2014-xii-31-ngm-rendelete-az-elektronikus-kozuti-aruforgalom-ellenorzo-rendszer-mukodesevel-osszefuggesben-a-kockazatos-termekek-meghatarozasarol>

The first column of the list contains the first four digits of the customs tariff number.

Risky products reaching the value limits (500 kgs or HUF 1 million) must always be registered in EKAER system, even if they are transported with vehicle NOT subject to Hungarian road toll payment.

III. Vehicle licence plate number

At EKAER registration it is compulsory to provide the vehicle licence plate number. Eventual changes of the plate number has to be followed only on the Hungarian section of transportation route. In case of transport equipment change, please give us the actual plate number always before crossing the Hungarian border, considering also the normal opening hours of ZOLLNER Kft.

At the modification of the licence plate number please always refer to the EKAER number, and send it with the following information to your ZOLLNER contact person (purchaser):

- EKAER-number
- Name of the consignor
- Truck licence plate number + country of registration of truck
- Trailer licence plate number + country of registration of trailer

IV. Consignment stock of supplier

Suppliers disposing of consignment stock at ZOLLNER Kft. in Hungary and also having Hungarian VAT registration, means submitting VAT statement in Hungary, are subject to the Act about the rules of taxation, and to all relating regulation/legislation.

In case you invoice your consignment shipments to ZOLLNER Kft. with your Hungarian VAT Number, so you are the consignor and the consignee at the same time, then it is your obligation to submit the EKAER notification towards the Hungarian Tax Authority.

V. Liability

If you have deliveries, which have to be registered in EKEAR system according to the rules mentioned above, please inform ZOLLNER Kft. at least one workday before the dispatch of the transport, indicating all the necessary information completely and correctly.

Please consider that if you dispatch more orders received from different Hungarian departments of ZOLLNER Kft. in one shipment, then the gross weight and the value of the parts sent together, have to be cumulated!

In case the EKAER registration cannot be fulfilled, or cannot be fulfilled in time, or the submission is incorrect, incomplete, or not complying with reality due to the failure of our Partner, then ZOLLNER Kft. reserves the right to charge the entire amount of the penalty as well as the cost of every arising direct and indirect damage (without aiming to give an exhaustive list, such damage can be line stop costs arising from the late delivery of shipment blocked by authorities, or penalties asked by our customers) to the Partner liable for the negligence or wrongful act. If you think that you don't want to decide yourself, which shipments have to be registered in EKAER system, please inform us about all of your shipments.

Thank you for your cooperation!
